

# Vinal Tech Takes On New York

On March 20, 2019, all members of chorus loaded onto a bus and traveled to Times Square. The bus was filled with laughter and chatter as the bus continued down the roadway. After three hours of sitting in traffic, we arrived at our destination, Broadway Up Close Walking Tours. After splitting into groups, the tours began. While on the tour, multiple pictures were taken, whether it was the sites around us or nearby pigeons. Once the tour was over, everyone crowded in front of a giant digital American flag.

For lunch, we went to the Bubba Gump Shrimp Company, a restaurant dedicated to Forrest Gump. After spending an hour eating, everyone headed to St. James Theatre to see Frozen, stopping for additional souvenirs on the way. Frozen was amazing, the effects were outstanding and so were the actors and actresses. Once the show was over, everyone was saying how great the show was. The dances were original and definitely caught the attention of the audience. The whole audience was mesmerized by the music and acting on the stage.
